There was a game of Base-ball played at Benson Depot, on Saturday, between the "Craw" Club, of this city, and Benson Club, which resulted in a score of four to three in favor of the latter.

Mr. Morrison Rodgers has purchased the interest of his partner in the grocery firm of Rogers & Allen. Mr. Rogers will continue the business at the old stand, corner of Broadway and Catfish alley, and respectfully solicits a share of the business of the community.

A New Council Demanded.

The time is approaching for the election of a new council for the city of Frankfort. An improvement on the present one is needed badly, and it devolves upon the people to select men who have the good of the city at heart instead of their own private ends. This Council, or at least a majority thereof, had a scheme before the last Legislature in which the city was authorized to take an unlimited amount of stock therein, in other words it was a scheme to get the city to furnish the money and the stockholders were to have an unlimited amount of stock and full control of the whole matter.

Again, to aid a "friend" an insurance policy for the company should be collected from the company should a fire occur, was canceled thirty days before it expired to give the insurance to a "friend" of the councilmen, and the worst of all by the instruction of this same one-man power the Clerk is directed to issue, and does issue, the city warrant for the full amount of the premium without any order of council. When trustees of a city concert schemes to make money for themselves at the expense of the city it is time for a change. Let the citizens look around and elect a council composed of good men, all tax-payers.

Let them select such men as Judge Wm. Lindsay, J. W. Pruett, R. K. McClure, Michael Buckley, Sig. Lischer, Capt. Sam Sanders, Hiram Berry, Jno. W. Payne, and J. W. Hughes, as men of such standing that no "scheme" can be manipulated through for any one's benefit.

Let the citizens and tax-payers register, and avail themselves of the very best men in the city, and vote and elect them. Remember all, make a new deal for the good of the city and her people and place a seal of condemnation upon every scheming councilman who offers for re-election.

P. S.—In referring above to the late "Insurance deal" it should have been stated that, in order to defeat the united efforts of other agents to secure in a mainly way a division of the "Bridge Insurance" (\$11,000 for 3 years) the account of the favored agent was approved by the chairman of the Bridge Committee, the premiums (\$830) collected a month prior to the expiration of the old policies, and counsel afterwards, with all the facts before them, with but one dissenting voice, endorsed the whole "scheme" to favor one man and he now receives a delinquent tax-payer to the city notwithstanding the earnest protests made before the council by other agents in person and by written remonstrances. The county Judge allowed a similar "deal" to be worked with the county policies on the Bridge. For many other points and proofs in the premises, ask the insurance men of the city. TAVEN.

Neuralgic Rheumatism and Erysipelas.

About four years ago I was attacked with what the physicians pronounced neuralgic rheumatism, accompanied with erysipelas. My appetite failed me entirely, and I had an intermittent pulse and very irregular pulsations of the heart. A terrible pain soon came into my chest and shoulders, and I became so helpless that I could attend to no business at all. The pains were movable, and would sometimes pass from one part of my body to another. Finally the erysipelas broke out on my left hand and arm, and produced much swelling. I was for eighteen months afflicted in this way, and of course used a great many kinds of medicines, but no longer gave me relief. Friends finally persuaded me to try Swift's Specific. I noticed a decided improvement while taking the first bottle. I continued its use until I had taken about one dozen bottles, when I found myself sound and well again, with no sign of the disease left except a stiffness in my hand, a result of the erysipelas. While taking the medicine I gained on an average two pounds of flesh per day. I think S. S. S. a valuable medicine, and I frequently recommend it to my friends.

PYÆMIA

Is the most virulent form of blood-poisoning. Less speedily fatal, but not less certainly so, is the vitiation of the blood of which the first symptoms are Pimples, Bites, Boils, and Cutaneous Eruptions. When the talent of Scrofula gives warning of its presence by such indications, no time should be lost in using AYER'S SERRAPARILLA, the only perfect and reliable medicine for the purification of the blood.

SCROFULA

Is a foul corruption in the blood that rots out all the machinery of life. Nothing will eradicate it from the system and prevent its transmission to offspring but AYER'S SERRAPARILLA. This preparation is also the only one that will cleanse the blood of Mercurial poison and the taint of Contagious Diseases. Impoverished blood is productive of

ANÆMIA,

A wretched condition indicated by Pallid Skin, Flaccid Muscles, Shattered Nerves, and Melancholy. Its first symptoms are Weakness, Languor, Loss of Nerve Force, and Mental Depression. Its course, unchecked, leads inevitably to insanity or death. Women frequently suffer from it. The only medicine that, while purifying the blood, enriches it with new vitality, and invigorates the whole system, is

FRANKFORT ROUNDABOUT.

FRANKFORT, AUGUST 28, 1896.

Rev. H. H. Kavanaugh will preach at Antioch Sunday, September 5, at 11 o'clock a. m.

Dr. W. T. Kelley, of Cincinnati, is at the Capital Hotel to-day, and will be glad to recall those needing his professional services.

The steamer Grace Morris and barge brought down the river on Friday evening 1,605 sacks of wheat, besides a large quantity of whisky.

The alarm fire on Sunday morning at 7 o'clock was occasioned by the bakery of the Capital Hotel catching fire. It was speedily extinguished and with but little damage.

Mr. W. M. Bristow has placed us under obligations for a mess of the finest sweet potatoes of the season. Four of them weighed 71 pounds. They are of the red bermuda variety.

We are much gratified to learn that Mrs. Grant Green, sr., who is at the Warm Springs, in Virginia, is improving, and hopes are entertained now for her complete recovery.

Mr. W. M. Bristow, seeing our notice of the large sunflower, brought us by Mr. J. H. Williamson, brought us one that goes right smartly better, being forty-eight inches in circumference. Next.

And still they come. Mr. Lewis Sanford has sent to our office another mammoth sunflower. It is just the same size in circumference with the one sent by Mr. Bristow, but is a little larger through the back.

Mr. V. Derberich, who has been absent from the city for three weeks, will return to-day, and will be ready for business early Monday morning. His many customers will take due notice and govern themselves accordingly.

The Public School, in South Frankfort, Mr. Mike Buckley, contractor, and Mr. B. B. Jeffers, superintendent, is being pushed toward completion. The hope being to complete the building this fall, they have a full force at work.

The Committee of Arrangements of the Sunday-school Convention desire to thank Messrs. D. H. Baldwin & Co., for the use of their elegant Betsy Crogan, loaned by W. M. Culter, Esq., agent at this place, on the occasion of the late Convention.

S. C. BULL, Ch'm Com. Ar.

Messrs. Richardson and Hawkins have just sent the Roundabout boys the largest watermelon of the season. It weighed forty-five and a half pounds and is of the black Italian variety. It was grown on the land of Mr. Nat. L. Richardson, and they have ten acres of them that they are daily referring to our citizens.

Mr. Darsie occupies his pulpit at the Christian Church to-morrow morning at 11 o'clock. There will be no night service, as Mr. Darsie goes to Grafenbourg to begin a protracted meeting to-morrow night. The meeting will continue a couple of weeks, but Mr. Darsie will fill his home pulpit each Sunday morning during its continuance.

Capt John H. Pattie, who attended the reunion of the "Orphan Brigade," of which he was a member, in Cincinnati, returned home on Thursday, and together with Jerry Spalding and Joe Cole, will go over the ground and repeat the scenes from 1861 to 1865, at their experience meetings, which are held nightly at the store of Mr. C. F. Lang, in South Frankfort. They are all in their prime of the hospitality of the good people of Cynthiana.

HULL ALABAMA PALACE.—The principal feature in this week's programme at this place of amusement is the extraordinary performance of the Pavanellas, "The Pavlovs of Paris." Their entertainment is certainly most original, for they contrive to produce, and that of the most pleasing kind, from some of the apparently most unmusical of articles. Paving stones, manure and clack are not usually associated with sweet sounds, but under the manipulation of the Pavanellas they instantly become harmonious. —Hull (Esp.) Daily News.

Mrs. Sol Harris has left for New York City to buy a full stock of dry goods, fancy goods, notions, millinery, etc. She will meet Mene Wollerman, my head milliner, there where they will select all the latest novelties that can be found in the eastern markets. On Tuesday night Mr. Wm. Egbert, son of Mr. Chas. T. Egbert, of this city, was shot and dangerously wounded by some unknown person, near Texarkana, Texas, while acting as a nightwatchman in a lumber yard. His father and mother left this city on Wednesday for that place to be with him.

Last fall Messrs. J. E. Miles & Son introduced the Mediterranean Hybrid, a new variety of red wheat, in this section, and Messrs. Richard Fogg and M. D. Averill, of this county, were among the number of farmers who procured seed from them. On Tuesday Mr. Fogg took the first premium at the wheat show of Commissioner John F. Davis, on a sample raised by him, and on the same day Mr. Averill threshed out his crop, the yield being 41 bushels to the acre. It seems that this variety is especially adapted to this locality.

On Saturday night Frank Egbert had a difficulty with a young colored man by the name of Jake Dudley, in which Dudley was seriously stabbed several times. Officers George and C. F. Smith attempted to arrest Egbert, but he drew a pistol and defied them, and has since eluded arrest. The two officers have been dismissed by the City Council. Officer P. F. Smith rests the public to suspend their judgment in the case until next week, when he will publish a card explaining his action, which he brought in too late for this issue.

Fulton Hall opens with a First Class Show.

[Daily News Era, Aug. 14.]

The opening of Fulton Hall for the season took place last night, when Wilson and Bonk's famous minstrel, appeared in a house that was far from overflowing with the excellence of the entertainment. The bill was one of the best ever offered by a minstrel company to a Lancaster audience, but the oppressive heat deterred a great many from going who would otherwise have been there. The Pulaski Brothers and the Pavanellas are wonderful, and the applause they elicited was generous as it deserved. George Wilson lost most of his powers for making people laugh, and he repeatedly "brought down the house." All in all, we have never seen a better minstrel and variety entertainment in this city, and if the company should return in cool weather we feel safe in saying they will be greeted with a crowded house.

Harp is increasing fast as Mr. Horace Harrod is putting up a first-class grist mill, to which he is going to attach a saw, and Mr. C. R. Educational.

The following extracts are taken from the "Year Book" of the Owen County High School, by Walter S. Smith, the Principal. They are so appropriate that we thought we would give them to the readers of the ROUNDABOUT, with the sincere hope that each one will study them well and then act accordingly.

T. HUNTER, Pres't F. C. T. A.
DEAR FRIENDS:—The education of our children ranks among the highest of human duties. Many of you who are in earnest upon this point, make serious mistakes in the discharge of your parental duty, some of which mistakes are fatal to the object in hand. We suggest the nature of the mistakes in the interest of the children:

1. *As to starting in.*—Parents wait to finish the crops and the wheat before allowing the boys to enter school. Meantime, the girls are enrolled, and their class-work is well begun; securing to them advantages that tell against the boys for the remainder of the year. This is having its effect all over our farming districts, in the way of giving to the world a class of men only partially educated. Men on farms have better opportunities than have men in any other vocation to make education useful. Educated farmers, alone, are able to get from the soil what nature designs it to yield.

2. *As to regular attendance.*—Hundreds of bright minds have been injured by a broken attendance. The work of the school is a growing process, and each day's growth depends on the growth of past days; especially on that of the day preceding. When growth is checked for a season it not but begin again at a great disadvantage. A child who stays out of school on Monday is a certain failure on Tuesday, and works sluggishly and unsatisfactorily for the remainder of the week. If this is repeated two or three times, the child's growth of mind is destroyed for the session; and such are almost sure to become discouraged, break down, and stop school.

3. *As to stopping out.*—The necessity for stopping out at the approach of fair weather is a great misfortune. When a pupil enters school he is unfit for good work as a student, because he must undergo the process of habituating his mind to regular work. He must become acquainted with the teacher and learn his ways. He must develop an interest in his work, and his mind must begin to grow. If he stops out a month or two before a student begins to do first-rate work. Toward the close of the session, these impediments are all out of the way; and it has been estimated that a student does more work, and does it better, the last two months of a year than he does in the first five. So it is a great loss of money and time to stop near the close.

4. *As to cooperation.*—The teacher is no enemy to a true parent or his child. With the parent the teacher goes hand-in-hand in the holiest of all duties—the training of his offspring. While it is true that teachers are not infallible, it is fully as true that they are not always wrong when they seem wrong. Parents should never act upon such an impression without a candid interview with the teacher. By such a friendly course the most painful misunderstandings may be adjusted. Teachers are servants, but they are not dogs. They have the interest of the children at heart, and if sustained by parental cooperation, will help the children to become men and women.

The Verdict Unanimous.

W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was relieved of rheumatism of 10 years' standing." Abraham Hare, Druggist, Belleville, Ohio, affirms: "The best-selling medicine I have ever handled in my 20 years' experience is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the kidneys or blood. Only a half-dollar a bottle at Jos. LeCompte's drug store.

Rheumatism

Though painful and wearing almost beyond endurance, it is an incurable disease if treated in time. Perhaps no other disease has so baffled the efforts of science and medicine as this, but at last a remedy has been discovered in **DONAGUE'S WHICH CURES RHEUMATISM**, and is highly commended by many of the Leading Physicians.

WHAT THEY SAY:
"DONAGUE'S WHICH CURES RHEUMATISM" is a safe, reliable, and effective remedy for Rheumatism, Gout, Gravel, and all other ailments of the system. It is a true and reliable remedy, and has been found to be the best remedy I have ever found for Rheumatism, Gout, Gravel, and all other ailments of the system. R. F. DAVIS, Haverhill, Mass.
